The image contains two line graphs, labeled P.P. 238.00 and P.P. 236.00, showing the relationship between road elevation (Rzędniś istn.) and distance (Odległosci istn.).

Top Graph (P.P. 238.00):

- Y-axis (Rzędniś istn.):** 260.00, 265.00, 270.00.
- X-axis (Odległosci istn.):** 0.00, 1.00, 2.00, 3.00, 4.00, 5.00.
- Profile:** A line graph showing elevation changes. A red dashed line indicates a specific elevation of 265.00 at a distance of 1.00.
- Label:** P69.1-7 km 0+500.00

Bottom Graph (P.P. 236.00):

- Y-axis (Rzędniś istn.):** 160.00, 165.00, 170.00.
- X-axis (Odległosci istn.):** 0.00, 1.00, 2.00, 3.00, 4.00, 5.00.
- Profile:** A line graph showing elevation changes. A red dashed line indicates a specific elevation of 165.00 at a distance of 1.00.
- Label:** P69.1-8 km 0+500.00

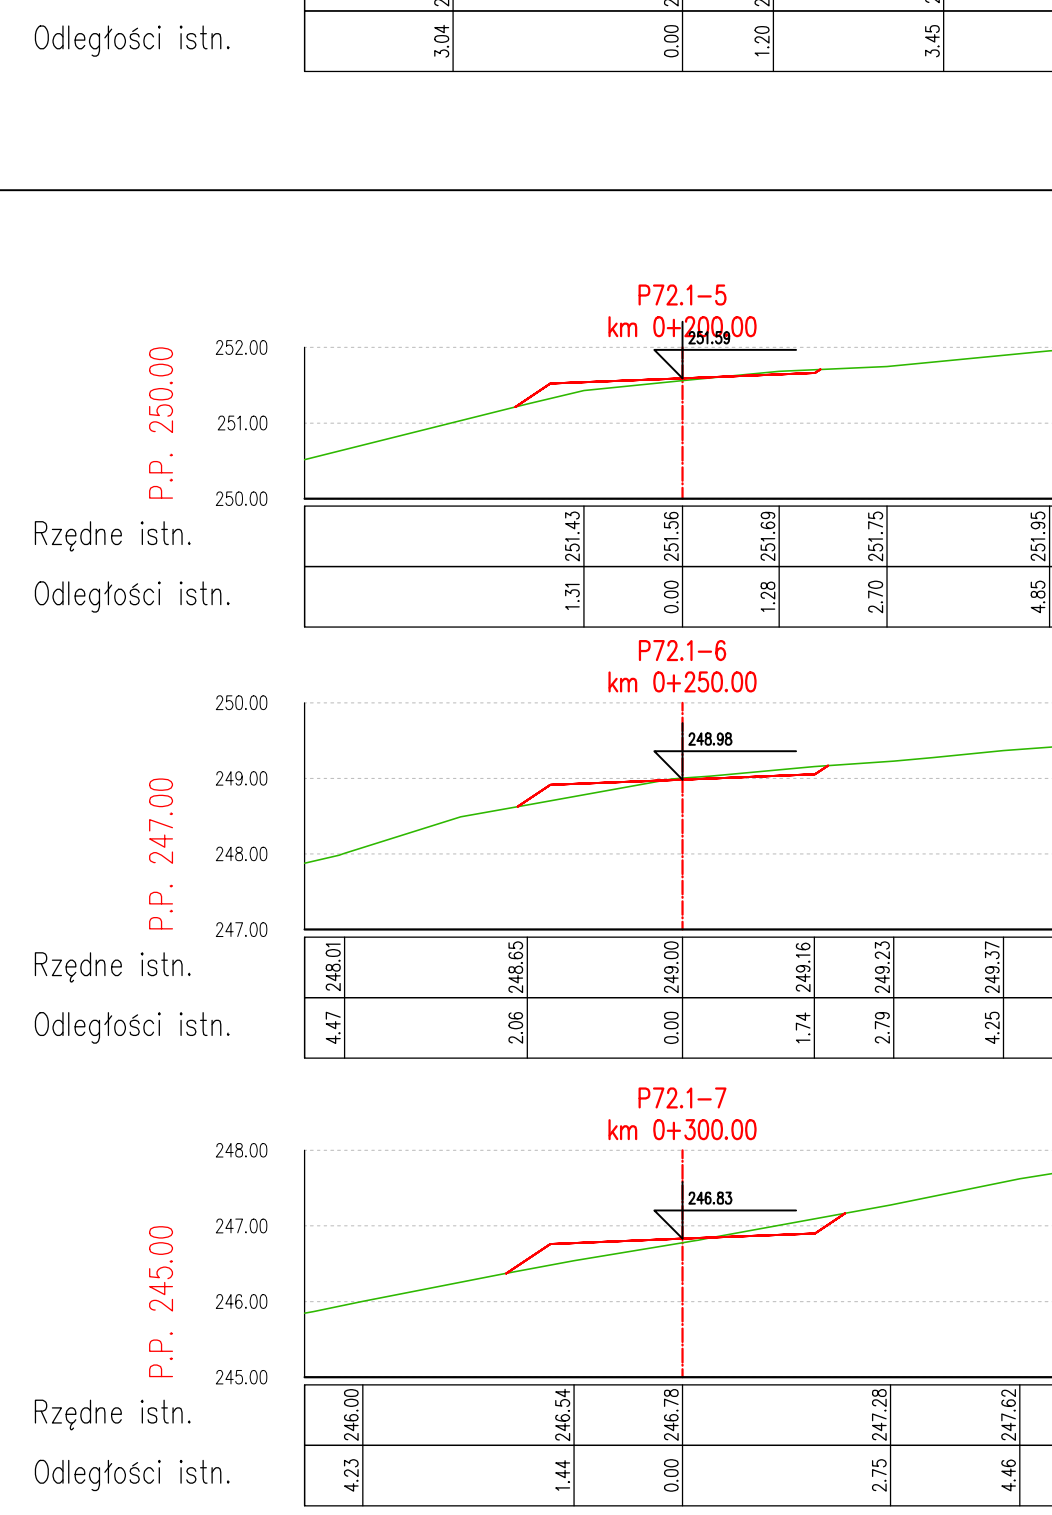

Figure 10 displays a series of 12 graphs showing the relationship between 'Rzędne istn.' (Existing Elevations) and 'Odległości istn.' (Existing Distances) for various points along a route. Each graph corresponds to a specific point (P74.1-1 to P74.1-8) and a distance (km). The graphs show a green line representing the existing profile and a red line representing the proposed profile. The y-axis represents elevation in meters, and the x-axis represents distance in meters. The graphs are arranged in a vertical sequence, with each graph showing a different section of the route. The points are labeled as follows: P74.1-1 km 0+250.00, P74.1-2 km 0+050.00, P74.1-3 km 0+120.00, P74.1-4 km 0+150.00, P74.1-5 km 0+200.00, P74.1-6 km 0+280.00, P74.1-7 km 0+300.00, and P74.1-8 km 0+350.00. The graphs show the existing profile (green line) and the proposed profile (red line) with various data points and elevations.
