

The image shows a detailed architectural floor plan of a residential building. The plan is organized into a grid of rooms, likely apartments or flats. Each room is represented by a rectangle, and many of these rectangles contain a window symbol, typically a rectangle with a cross or a smaller rectangle inside, indicating the placement of a window. The layout is symmetrical and repetitive, suggesting a standard floor plan for a multi-unit building. The drawing is in black lines on a white background, with some areas shaded in light gray to represent walls or structural elements. The overall impression is that of a technical drawing used in architecture to communicate the spatial organization of a building.
