

The diagram illustrates a road cross-section with the following dimensions and labels:

- Left side (from left to right):**
 - 100 (width of the left shoulder)
 - 200 (width of the left side of the road)
 - 225 (width of the left side of the road)
- Right side (from right to left):**
 - 200 (width of the right shoulder)
 - 225 (width of the right side of the road)
- Central section (from left to right):**
 - 75 (width of the left lane)
 - 200 (width of the left lane)
 - 200 (width of the right lane)
 - 75 (width of the right lane)
- Labels:**
 - linia rozgraniczająca** (dividing line) on the far left and far right.
 - pobocze** (shoulder) above the 75 and 75 dimensions.
 - jezdnia** (roadway) above the 200 and 200 dimensions.
 - 400** (total width of the roadway) above the 200 and 200 dimensions.
 - A** (arrow pointing up) above the 400 dimension.

skarpy i dno rowu umocnione kamieniem narzutowym
(polnym) 16-20 cm na suchym betonie C15/20,
spoiny wypełnione zaprawą cementową

80

400

Diagram illustrating the cross-section of a drainage ditch (Przekrój A-A) with a circular manhole. The ditch has a 1:1.5 slope and a bottom width of 160 cm. The manhole has an 80 cm diameter. The ditch is filled with a 0-20 mm aggregate. The manhole is surrounded by a 25 cm thick support layer. The total height of the ditch is 180.30 cm. The manhole is 178.92 cm from the ditch bottom. The ditch is 75 cm wide at the top. The manhole is 100 cm from the ditch bottom. The manhole is 25 cm from the ditch bottom. The manhole is 25 cm from the ditch bottom.

Dimensions and labels:

- Top width: 75
- Total height: 180.30
- Manhole diameter: 80
- Manhole depth from bottom: 178.92
- Ditch bottom width: 160
- Slope: 1:1.5
- Manhole depth from top: 100
- Manhole depth from bottom: 25
- Manhole depth from top: 25
- Manhole depth from bottom: 25
- Manhole depth from top: 25

Text labels:

- bepośrednio przy rurze (0,2 m) zastosować mieszankę niezwiązaną z kruszywem 0-20 mm
- podsyпка wspierająca z mieszanki niezwiązanej z kruszywem 0-20 mm
